The Partnership
More than 100 schools, community members, nonprofits, businesses, and government agencies have come together as a cross-sector, county-wide, Cradle to Career Partnership to ensure a future in which every child’s potential is unlimited, in which race, ethnicity, zip code or financial circumstance does not dictate outcomes. Together, partners are breaking down barriers, building relationships, changing systems, and improving lives. Join us, and together we can end Marin’s persistent and systemic educational inequities.

The Process
With support from Backbone Staff and a proven collective impact framework, Partners are aligning around a common vision, using data to hold each other accountable, taking collective action, and advocating for equitable, systemic change.

Collaboration In Action
Together we can accomplish what none can do alone, sustainable, equitable, systems change, now and for future generations.
